GUITAR FOR BEGINNERS

Created by Jessica M.

Have you always wanted to play guitar, but never got around to actually getting started? The following free guitar lessons have been created with the beginner in mind. You'll learn how to hold a guitar and pick, the names of parts of the guitar, a scale, a few chords, and a couple of songs.

Year Progress Share this! Resume Course >

Overview

Lesson 1	Lesson 2	Lesson 3	Lesson 4
First tentative steps. Get to know your instrument.	How to hold your guitar properly and simple playing techniques	Accords: how to use more than one finger at the same time	Play-along-Song: Carry on my wayward son

Lesson 5	Lesson 6
The real deal: playing with other musicians	Tips and Tricks

Saturday, 19 January

9:00 - 10:00 **Registration, coffee and installation fest**

During the morning we'll install Ruby on Rails on your computer (for those who couldn't make the installation party).

10:00 - 10:15 **Welcoming words**

Outline of the day & word from our sponsors.

10:15 - 10:30 **Programming Intro**

Designing your web app.

10:30 - 11:00 **Bento Box Intro**

Learn to "speak geek" and to understand web apps.

11:00 - 12:30 **Tryruby.org**

Let's get coding!

12:30 - 13:30 **Lunch**

13:30 - 15:30 **WORKSHOP**

Jumpstart your first web application.

15:30 - 16:15 **Lightning talks from our coaches**

16:15 - 18:00 **WORKSHOP**

Extend your application.

18:00 - **Afterparty**

Open to everyone. Time to socialise with your fellow participants and the team!

Rails Girls App Tutorial

Created by Vesa Vänskä, [@vesan](#)

Make sure you have Rails installed. [Follow the installation guide](#) to get set up.

Get to know the tools

Text Editor

[Sublime Text](#), [Komodo Edit](#), Vim, Emacs, and Gedit are examples of text editors you can use for writing code and editing files.

Terminal (known as Command Prompt on Windows)

Where you start the rails server and run commands.

Web browser

(Firefox, Safari, Chrome) for viewing your application.

1. Creating the application

We're going to create a new Rails app called `railsgirls`.

Rails Girls

teaches that...

Coding is not boring.

Coding is not lonely.

Coding is about creating
things.

Coding is magic.

Coding is literacy.

Coding is FUN!

Coding is like learning a language.

Coding is like learning a language.
(You can't learn it in a day)

Materials

Here you'll find the materials from the workshop as well as other resources in building web apps.

Check out the photos, apps & presentations and signup for your newsletter for future updates and events.
